

My name is Michael Imholte. I'm 16 and I attend Cathedral high school. many times in my life I find its hard to deal with just being a teenager. I often turn on the radio and listen to air1 for atleast two hours a day while doing my homework. this helps me relax and I feel much better after school. I know that I am not the only one in St. Cloud that listens to Air1 because I've seen many window stickers. To take that away would be to take away a very important part of my and many other peoples lives.

If you were to take this away I know of, atleast in my friends seven families that listen to air1. not including the many I don't know. every pledge drive i hear from St. Cloud minnesota and every time its some one I don't know. please do not introduce LPFM it would be horrible if i couldn't hear air1 anymore.
